(*a*) Under the system of apportionment hitherto in force, the charges for Railway Police were distributed between Government and Railway Companies in the proportion of $\frac{3}{10}$ths and $\frac{7}{10}$ths. Under the revised system introduced from 1st April 1919, the Government is to bear all charges for "Crime and Order" Police, the Railway Company being responsible for the charges on account of the "Watch and Ward" Police, besides making a lump contribution to Government in respect of the "Crime and Order" Police. The contributions paid by the several Railway Companies during 1919-20 have been credited as Imperial receipts under "XVII-Police," and the necessary adjustments between Imperial and Provincial Funds will be made in the accounts for 1920-21.

Amount credited to Revenue		...	

NOTE.—In the accounts for 1919-20, the English sterling transactions have been converted into rupees on a uniform basis of £1=Rs. 15. The remittances from India to England by means of council bills and transfers and the remittances in the opposite direction by means of sterling bills and transfers are, however, actually effected at rates differing from this rate, the difference constituting the total gain or loss by exchange in normal years. The transactions of this year (as well as of preceding years) are, however, swollen by receipts in England of War expenditure incurred by the Government of India and recovered at varying rates of exchange.

The total exchange accrued as above was wholly taken to the Revenue Account in previous years commencing with 1914-15. In view, however, of the high rates of exchange prevailing in 1919-20, it has been decided to revive the practice in force prior to 1914-15 and to give the benefit of the high rates to the Railway, Irrigation and Delhi Capital accounts. In the case of Railways it may be further explained that the sterling transactions of Railway Companies have been converted at the average rate of exchange as defined in their contracts, and this exchange has been taken into account for purposes of exhibiting the capital transactions of individual Railways in accounts Nos. 74 and 79. For purposes of Government accounts the rate applied is the average of the daily Calcutta Telegraphic Transfers rates on London during the year, *viz.*, 1*s.* 11·8778509 the rupee, and the difference between these two rates has been credited as a lump sum in account No. 74.

It has been decided to credit the balance of the gains from exchange during 1919-20 to a Suspense head in order to meet the deficiency in the sterling investments of the Paper Currency Reserve which will arise when they are revalued on a two shilling basis.

(a) *Vide* note (a) on page 146.

(b) In the calculation of this figure a sum of Rs. 13,60,525 credited to the Capital Account of the Mutha Canal Project in 1918-19 on account of the separation of Poona Water Works has been taken in reduction of the Capital outlay to end of 1916-17, as the credits really relate to expenditure incurred during that period.
